

# Oil & Gas Drilling & Production

## HPU SYSTEMS

Industry specific features include air start with disc-type spark arrestor and over-speed shut down protection. Pre-fabricated units are available in various horsepower, ratings and flow capacities to fit most topside and off-shore applications. Each unit is individually tested to ensure it meets performance benchmarks before shipping. Our HPUs are built in compliance with a host of global and regional standards and customers are invited to test units before purchase.

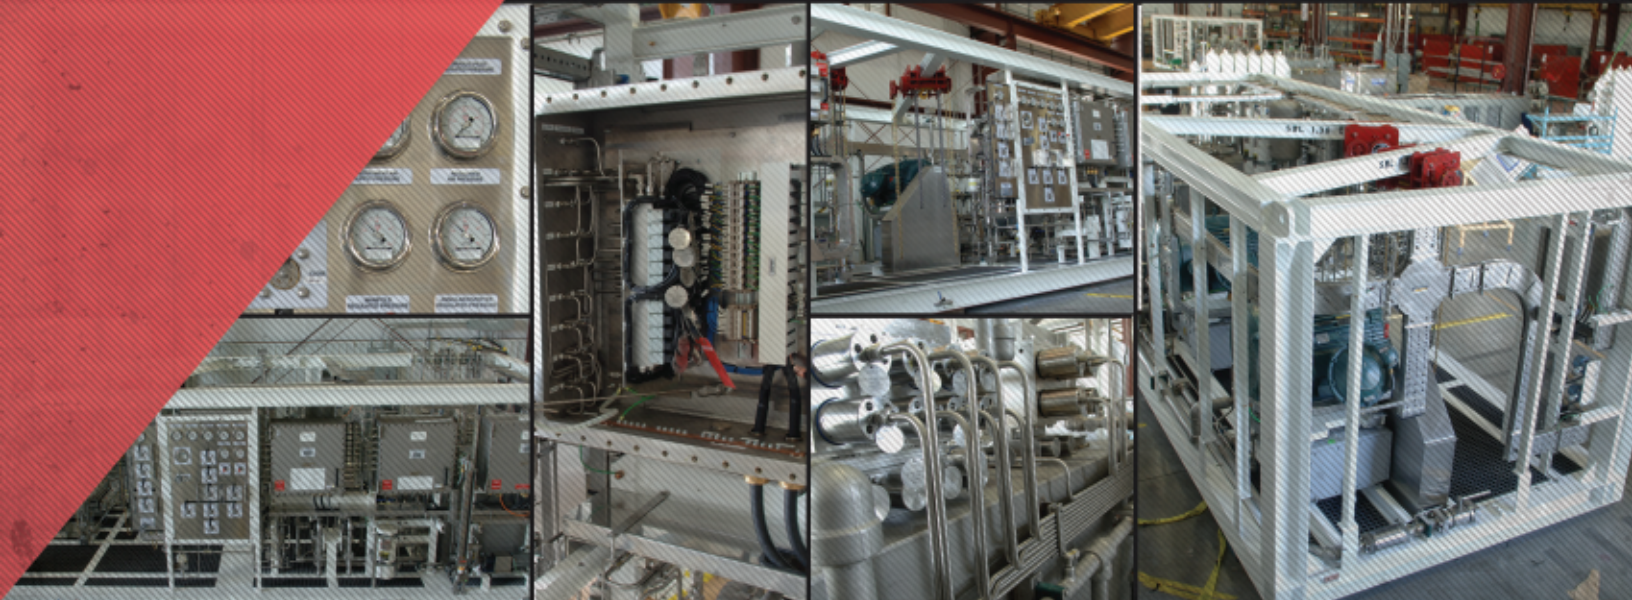

Oil & Gas  
Drilling & Production

HPU SYSTEMS

Pantex Ennerflo's Hydraulic Power Units (HPUs) are uniquely designed and built to meet the exacting needs of the upstream Oil & Gas sector. Our HPUs are designed for heavy-duty industrial water-cooled diesel engines. We use highly resistant coating frames and skids for long life and ease of transport.
